Job description

As a Tendering Manager, you will be the linchpin in our bid management, ensuring seamless coordination and meticulous planning and supervising responsible for preparing and submitting tenders. Your primary focus will be to ensure that all tenders are submitted on time, align with both technical and financial requirements, and reflect the company's capabilities and win strategy.

You will interact with government agencies, third-party vendors, subcontractors, and internal departments including design, legal, and finance. You'll also be responsible for post-submission follow-ups, bid clarifications, and compliance documentation.
